Bringing nature closer to people
through living landscapes that perform and inspire

Designing Landscapes That Perform, Sustain & Inspire

SR Greenscapes Pvt Ltd delivers science-driven, climate-responsive green infrastructure across India.

We transform outdoor spaces into self-sustaining ecological systems that are:

- Visually refined
- Ecologically stable
- Resource-efficient
- Designed for long-term performance

From small residential gardens to large-scale green infrastructure, we create living ecosystems engineered for performance and longevity

Vision

To be india's most trusted name in sustainable landscape engineering.

Mission

To deliver science-based, climate-resilient and high-performance green solutions.

Integrated Landscape Solutions

Landscape Design & Development

Residential | Commercial | Institutional | Large-scale Projects

Specialized Garden Services

Vertical Gardens | Terrace Gardens | Biodiversity Parks | Thematic Gardens

Hardscape & Softscape Execution

Pathways | Water Features | Lighting | Irrigation Systems | Lawns

Landscape Maintenance

AMC | Complete Garden Care | Lawn Management | Plant Health

Nursery & Plant Supply

Ornamentals | Fruits & Plantation | Forestry | Bulk Supply

Horticulture Consultancy

Farm Planning | Urban & Terrace Farming | Kitchen Gardens

Garden Supplies & Green Gifts

Pots & Planters | Potting Mix | Accessories | Eco Gifting

Event Styling

Floral & Green Styling | Custom Installations

Why SR Greenscapes...?

We design outdoor environments that integrate sustainability and long-term performance.

- Science-backed design rooted in plant and soil ecology
- Climate-responsive planning for Indian conditions
- Low maintenance, high-performance landscape systems
- End-to-end execution with technical precision
- Experienced horticulture and field execution team
- Long-term reduction in maintenance cost & resource use

Where Nature Meets Engineering.....!

Our Process

- 1. Consultation** - Understanding vision, site & climate conditions
- 2. Design** - Scientific and climate-responsive planning
- 3. Planning** - Scope, cost and timeline clarity
- 4. Execution** - Professional on-site implementation
- 5. Handover** - Complete walkthrough & guidance
- 6. Aftercare** - Long-term landscape performance support

Let's Create Your Living Landscape

Science-led design. Sustainable impact. Timeless value....!
